

## Codebook

This is the codebook for the data from the 2022-2023 Salem Center/CSPI forecasting tournament. The two tables below are for the file Salemcspi.xlsx. This file is for now being withheld from the public, but those interested in exploring it should feel free to reach out at [contact@cspicenter.org](mailto:contact@cspicenter.org). The file Salemratings.xls is a subset of Salemcspi.xlsx.

The file Calibration.xls is each market as one data point. The file Allobs.xls has all observations, that is, the probability of each market every day across the entire tournament. It was used to make Figure 1.
